

SRH2024 Competitor Update #4

- DOCUMENTS – still some to come in

Many crews have still to submit their documents to

geraldine.hough@bigpond.com

If you haven't already, please get it happening. Remember, documents incomplete = no start, no refund

- ROAD CLOSURE OFFICIAL – still some to come in

It is a requirement and obligation of entry that all competitors provide one person to act as road closure official for at least one stage at the event. Many have already done so, thank you, it is VERY, very helpful.

BUT there are many who have not. Get your person to register, naming you on the following link

<https://rallysa.com.au/events/rally-of-the-heartland/officials-registration/>

- START LIST

The Entry list is live on our website - <https://rallysa.com.au/events/rally-of-the-heartland/entry-list/>

We will publish a start list soon after entries close on April 3rd

That will be the order in which the Prologues will start. Don't forget the prologues count in results. Friday afternoon re-start will be in Prologues result order

- HOT LAPS – SEE ATTACHED FLYER

As part of this event, we are conducting "hot" laps at the Burra Monster Mine Site on Friday 26th of April as a fundraiser for the Burra Community School Canberra Trip

We need a few more participants to provide rides on a 2km course that is not part of an event stage. Let me know if you want to participate.

- HELMET ELEGIBILITY

Please note that MA has amended Schedule D (originally advised in 2017, with effect from 1 January 2024), to downgrade the Snell SA 2010 and Snell SAH 2010 helmet homologations such that they would no longer be eligible for Category A. Therefore these Snell Helmets are not eligible for gravel or tarmac rally, not even at Club level. This is to remind all competitors to check that your helmet (in fact all your apparel) complies with Schedule D as amended.

Please note that a helmet may be covered by more than 1 standard and provided one of the standards on the helmet is listed in Schedule D as Level A it is accepted (I.e., FIA 8860-2010 and Snell2010 - FIA standard is still valid)
