

IMPORTANT NOTICE TO COMPETITORS

The road book for this event has been created based on providing instructions that enable crews to traverse the course.

It has been carefully prepared, and independently checked, using non-competitive vehicles at relatively low speeds.

The instructions are our interpretation of the course. **They may not contain some items that you consider to be hazards, and they may not contain items that become a hazard.**

The instructions cannot, and must not, be used as any form of “pace notes”. This event is a “blind event”, and competitors should drive to what they can see.

The special stages and liaisons traverse a wide range of public and private roads. Animals, both wild and domestic, may be found on the course during the event. In addition, the course may contain changes in direction, and/or surface, which may not be in the instructions.

Accordingly, we advise crews that they are totally responsible for the manner and speed in which they traverse the course, and ultimately their own safety. Crews should be taking their own experience and abilities into account, and so traverse the course in the manner and speed at which they are comfortable.

Remember – motor sport is dangerous - Drive according to what you can see.
